

## EHPS Annual National Delegate Report 2016

---

**Country:** Russian Federation

**National Delegate:** Elena Nikolaeva

---

### **General**

This year is not good for the Russian group in the EHPS. The Ruble is going down and it is too expensive to pay in Euros.

### **Publications**

The monograph “Health support in the kindergarten” (E.I. Nikolaeva, V.I. Fedoruk, E.Yu. Zaharina) has been published.

### **Conferences**

We have organized an All-Russian conference devoted to pediatric health in the kindergarten.

We are trying to organize a networking laboratory. We hope it could help researchers to investigate the childhood and child health in longitudinal studies.

We currently have specific political and economic situation which restricts the realization of some projects, but we hope we could do it sometime later.
