

University courses in Health psychology are now given in universities and colleges all over Sweden with a growing number of professorships in Health psychology or in Psychology related to health. There are two main textbooks in Swedish, one by S. I. Andersson, *Hälsa och psykologi*, Lund 2009: Studentlitteratur (an earlier version also translated into Danish), and another by U. Stenström and O. Rydén, *Hälsopsykologi, Psykologiska aspekter på hälsa och sjukdom*, Stockholm 2008: Bonnier utbildning. A textbook in oral health and psychology was published earlier this year (S. I. Andersson, *Tandhälsa och psykologi*, Lund 2012: Studentlitteratur).

Integration of psychologists in the European health care system. Challenges and opportunities from a Swedish perspective: download pdf-file
